IHV Audit Trail - Windows

- 2024-11-30 - Industrial HiVision

As of v6.0 IHV logs events to the Windows event log. The events include:

Log in and out of Industrial HiVision Any action which results in an SNMP Set Request being sent to a device, including the MIB variable that was set, and the new value Any actions from HiDiscovery within Industrial HiVision Start of external applications All actions for which the "Edit Mode" is needed Cannot be disabled

This lesson describes how to create a custom view for IHV 6.0 events in the windows event viewer

Event Viewer

e Action View Help					
Custom Views	Application Numbe				Actions Application
Windows Logs			urce fice Software Prot	Event II *	Open Saved Log
