

## Network Connections

- 2018-02-21 - HiMobile

As of HiMobile version 2.0 next to devices also network connections and their properties are available.

### **HiMobile Home Screen**

# HiMobile

Click on Network to browse the project tree.

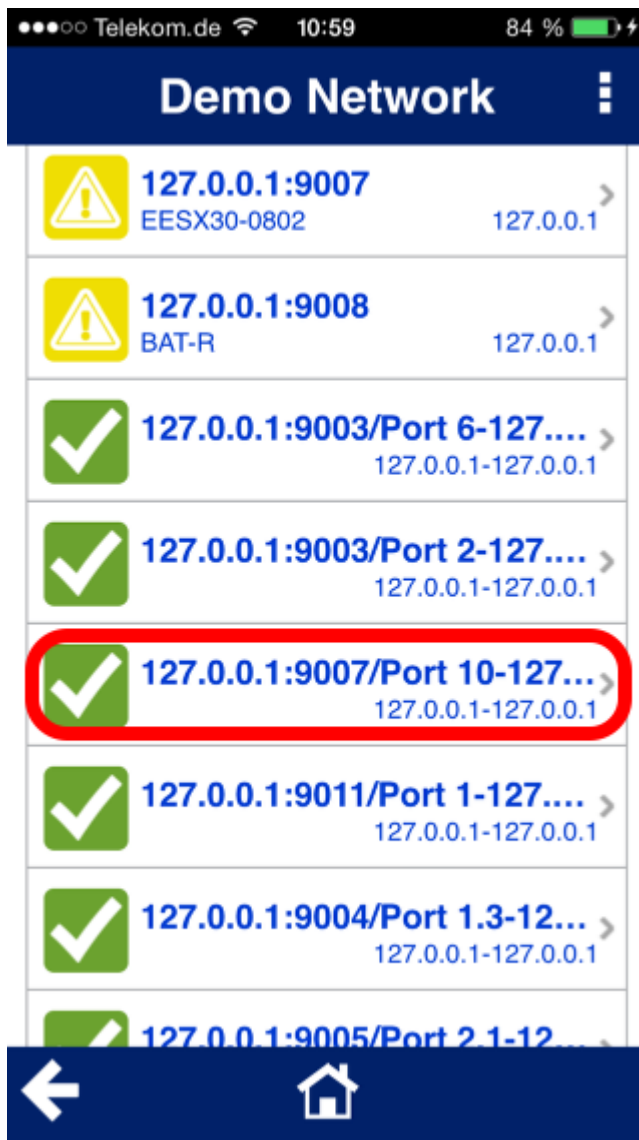

## Project / Folders

Select a project and subfolder to display the device/connections list.

The connections can be found below the device list.  
Select one to display the connection properties.
